Group profile

SilverBridge offers reliable solutions that support the operations of companies offering financial products and services. Our understanding of contract administration processes helps our clients to improve and simplify their business processes. We achieve this by implementing our system platforms and customising them to meet product and process needs. We have extended our services to include cloud hosted solutions. This is a result of experience gained over many years.

Exergy is our flagship platform that enables core back office policy administration in the life assurance industry. The Exergy solution package can be customised to suit the needs of a life assurer's on-premise software requirements. We have extended our portfolio to include group scheme administration, pension fund administration as well as elements of medical and short-term insurance. This caters for clients wanting to offer a wider range of financial services offerings.

We use a project approach to help our clients translate business objectives into IT requirements. We then implement sustainable solutions. Our software products and hosted services are rented to our clients on a usage basis.

Assets and Liabilities

The assets and liabilities of the Group are organised and managed at a corporate business support level. As the assets and liabilities contribute at a corporate level, it is not practical to determine a reasonable allocation of the assets and liabilities to the business segments.

1. NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED INTERIM GROUP FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 DECEMBER 2016

1.1. Basis of preparation

The condensed unaudited consolidated interim financial statements are prepared in accordance with International Accounting Standard 34 ("IAS 34"), the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council, the Listings Requirements of JSE Limited ("the Listings Requirements") and the requirements of the Companies Act of South Africa (Act 71 of 2008) as amended ("the Companies Act").

The accounting policies applied in the preparation of these condensed unaudited consolidated interim financial statements, which are based on reasonable judgment and estimates, are in accordance with International Financial Reporting Standards ("IFRS") and are consistent with those applied in the annual audited financial statements for the year ended 30 June 2016.

These condensed unaudited consolidated interim financial statements have been prepared by Petro Mostert CA(SA), Head of Finance and Shared Services, under the supervision of the Financial Director, Lee Kuyper CA(SA).

The directors take full responsibility for the preparation of these condensed unaudited consolidated interim financial statements and the financial information has been correctly extracted from the underlying financial information. These interim results have not been audited or reviewed by the Group's auditors.

1.2. Earnings per share

Basic and diluted earnings per ordinary share

2. CORPORATE ACTIVITY

2.1 Dividends and capital distribution

No dividend was declared for the period under review. The directors declared and approved a final gross dividend of 6 cents on 14 September 2016 for the year ended 30 June 2016 from income reserves and the payment distributions were made during the period under review.

2.2 Subsequent events

No events occurred subsequent to the period end that would require the interim financial statements to be adjusted.

2.3 Changes to the board of directors

Ms. Jacobeth Chikaonda has resigned as a non-executive director of the Company with effect 24 January 2017. Her resignation is in line with disposal of Kagiso Tiso Holdings shareholding in SilverBridge.

3. PURCHASE OF TREASURY SHARES

The SilverBridge Employee Share Trust concluded an agreement with C Shell 448 Proprietary Limited for the purchase of shares during the period under review. The SilverBridge Employee Share Trust purchased and paid for 5 874 923 ordinary shares for the consideration of R11.7 million on 30 November 2016. Although these shares remain in issue, they are treated as treasury shares resulting in the total issued number of shares of R34.8 million being reduced to R28.8 million when considered net of treasury shares.

The purchase of the treasury shares has been disclosed accordingly in the Unaudited Condensed Consolidated Interim Statement of Financial Position, Unaudited Condensed Consolidated Interim Statement of Changes in Equity and Unaudited Condensed Consolidated Interim statement of Cash Flows. The effect on the weighted number of shares in issue and the resulting Earnings per Share has been disclosed in note 1.2.

4. FINANCIAL RESULTS AND PERFORMANCE

We are pleased to report a continued improvement in our results. Net profit increased by 22% compared to the comparative period. Revenue was up 16%, driven by good growth in annuity Software rental. Careful management of indirect cost helped to increase operating profit by 22%. Headline earnings per share was up 25% to 14.4 cents from 11.5 cents in the comparative period.

The cash position reduced to R10.1m from R27.0m at 30 June 2016. This was mainly a result of the treasury share purchase, mentioned in note 3.

Our client relationships remain healthy. We continued with efforts into higher value-added offerings for existing clients as well as further developing our new offerings in cloud-based hosting and managed services. We are pleased with the performance and that our efforts have translated into revenue growth. We remain focused on efforts to enable ongoing growth.

SEGMENTAL REVIEW

Implementation services

This segment implements our solutions for clients and is project based.

Although revenue declined by 7%, the segment posted a small profit versus a small loss in the comparative period.

The revenue decline is a result of further improvement in delivery efficiencies. We are implementing projects faster and more efficiently to enable better growth in the support and software rental segments.

We are happy with our implementation delivery model and continue to secure new contracts in the small to medium sized market in South Africa and the rest of Africa.

Support services

Support is contracted on a monthly basis and is annuity based.

Revenue increased by 9%, helped by new offerings in data analytics. The segment result decreased to a profit of R314k compared to a profit of R708k in the comparative period.

The gross profit margin and segment result was impacted by the hiring of additional staff in this area to cater for the growth. We expect the margin to improve as new staff get up to speed.

We continue to focus on additional higher value-added offerings in this segment.

Hosting and outsourcing services

This segment provides a range of complimentary managed services to our clients. The services include cloud based hosting, outsourced technical services and full business process outsourcing.

This is a relatively new initiative for the Group. It enables us to offer additional services to existing clients as well as make our offerings appeal to a wider range of potential clients. It also helps keep our offerings relevant with regard to technology trends.

For the period, the segment generated revenue of R1.5 million with a loss of R2.7 million. We remain satisfied with the progress thus far and the opportunities that lie ahead. We envisage the segment becoming profitable as it achieves more scale.

Software rental and maintenance

Software rental is annuity based. It depends on usage, increasing with the number of contracts or policies administered.

Revenue was up 22%. New customers and complimentary products contributed to the growth. The segment made a profit of R17.2 million, compared to R11.4 million in the prior year. The overall margin increased to 80% from 64% in the comparative period.

Our software and the growth of our annuity rental stream remain a core focus going forward.

Research and development (“R&D”)

Our efforts have continued on developing new products that can generate future annuity revenue. Several new products have been launched and are contributing to revenue. We have also put effort into offerings for the new Hosting and outsourcing services segment.

We continue with R&D efforts in order to keep our existing assets relevant in terms of technology and market trends.

During the period, total direct costs were R5.3 million, of which R1.6 million was capitalised.

5. GROUP OUTLOOK

Overall we remain positive about the outlook for the Group. We continue to build our core annuity streams and we are making progress with revenue growth.

We are pleased to see that new initiatives are starting to pay off. In particular, the higher value-added offerings and the new cloud-based hosting and managed services. We remain optimistic that our efforts will help enable sustained growth.

The financial services industry continues to adapt to meet its customers’ changing needs in an increasingly digital world. Financial services providers are driving change in their business. They are differentiating their products and services in order to remain relevant in a rapidly changing world. SilverBridge remains well positioned to meet these needs. It presents us with opportunities to create platforms that can help the industry to adapt and continues guiding our new product development initiatives.
